CONVEYOR EQUIPMENT

Rotary Accumulation Table

36", 48" and 60" Diameter

10 Business Day Delivery Advantage on 48" ONLY

Accumulation Solutions

MCE's rotary accumulation tables are designed with the purpose of allowing transfer points control of product flow between production lines, or the manual unloading of products at packing stations. Configured for new or integrated with existing production lines, rotary accumulation tables are ideal for product accumulation or surge backup. An efficient process to balance production rates, a buffer space accumulates product allowing production to continue while downstream product is temporarily stopped.

FEATURES

- Guide rails flip in to make table either right or left handed
- Heavy duty disc supports for true disc edge travel and long life
- Load capacity up to 300 lbs combined weight
- Ability to accommodate various speeds and directions of productions lines

INDUSTRY SEGMENTS

- Snack Food & Bakery
