

SINGLE FILER CONVEYOR

Conveyor Solutions

MCE's single filer is a low-pressure conveyor designed to gently move products from mass flow or accumulation and return to a single file for continuous production throughput. Commonly paired with MCE's re-flow accumulation table, the single filing conveyor arranges product accumulation zones into a single line as production rates increase during discharge offering optimum running performance. Easily integrated with existing production lines, MCE's single filing conveyor moves round containers such as canisters, jars, bottles, and cans providing a consistent production flow of products to downstream equipment.

FEATURES

- Accepts mass-flow in-feed and conveys to single out-feed lane
- Available in low pressure
- Applicable for round containers
- Maximizes production throughput within a small footprint

INDUSTRY SEGMENTS

- Snack Food & Bakery
- Packaged Foods
- Contract Packaging
- Beverage
- Personal Care
- Pharmaceuticals
- Household Cleaning Products

APPLICATION TYPES

- Bottles
- Canisters
- Cans
- Jars

BECOME A DISTRIBUTOR FOR MCE!

Join a Great Team

MCE is always looking for the right partners in areas where MCE conveyor systems and equipment products are not available. Our goal is to help conveyor distributors offer quick-ship, efficient conveyor solutions.

ADVANTAGES WITH MCE

- Broad Product Line
- Industrial Duty Systems and Components
- Quick Shipment
- Commercially Available Parts
- Easy Installation
- Extensive Manufacturing Capabilities
- Quick and personal application reviews with our MCE conveyor experts

We have a talented and dedicated team of conveyor experts with many years of experience who are ready and willing to help take your business to the top. It's our dealer-driven philosophy that separates us from all the others. If you're ready to form your best conveyor business relationship, contact us for more information about becoming an MCE distributor.
