

Sanitary Z Incline Conveyor

Vertical Conveying Solutions

Nercon's Sanitary Z Incline Conveyor is designed to handle wrapped or unwrapped bulk food materials. Well suited for integration into existing or new hygienic production operations that require elevation changes, our sanitary Z incline conveyor is configured to be mounted to the floor, on casters or ceiling supported, moving product between floors, machines and processes.

Easy to maintain and easy to clean, Nercon's choice for food-safe conveyor belting is available in a variety of cleanable flights, scoops and synchronized sidewalls, to keep your product on the conveyor during the incline or decline movement and reduce product damage or loss.

FEATURES

- Effective and efficient sanitation reduces water and chemical usage
- Nercon's food-safe belts reduce the costs and complexities associated with managing a tensioned belt system
- Reduced risk of cross-contamination during maintenance, and eliminated bacterial harborage

INDUSTRY SEGMENTS

- Snack Food & Bakery
- Packaged Foods
- Meat & Poultry
- Produce
- Confectionery & Candy
- Dairy Food
- Frozen Foods
- Ready-to-Eat
- Pharmaceuticals

APPLICATION TYPES

- Candy
- Cereals
- Chicken Bites
- Chips
- Cookies
- Crackers
- Frozen Vegetables
- Granola
- Nuts
- Powders
- Seeds

Sanitary Z Incline Conveyor

Unique Sanitary Belting Design

- Unique belting technology optimizes the operational performance of your conveyor system with a patented tensionless belt system
- Tensionless belt system provides reliable, predictable drive performance, while simultaneously reducing costs with unparalleled belt life, and minimal component wear
- Synchronized sidewalls are hermetically sealed to the belt, reducing product damage that can be caused by static sidewalls
- Reducing the gap between the synchronized sidewalls and flights to 5 mm, the belt also minimizes product fall-back, thus increasing product quality
